

Post-Acute and Long-Term Care Therapeutic Modality Solutions

◀ Vectra Neo™ Therapy System

VitalStim® Plus

Electrotherapy and sEMG Biofeedback System

- Electrotherapy and sEMG Biofeedback system to help recruit and re-educate muscles involved in the process of swallowing
- 4-Channel System with preset and customizable programs
- Includes sequencing and concurrent programming for coordination of movement patterns
- sEMG and sEMG + triggered stimulation and visual aids provide feedback, muscular recruitment analysis, and a patient-focused interactive experience

Vectra Neo™

- Complete custom configuration of five modules offering two and four channel electrical stimulation, ultrasound, EMG, and laser options
- Intuitive interface with enhanced touchscreen, freedom to modify parameters, and the ability to create and save custom protocols
- Comprehensive reference and anatomical libraries, providing information on treatments and pathologies
- Helps improve clinic efficiency with data management and USB export capabilities, user focused lead wire management system, and multi-patient functionality

Vectra Genesis®

- Modular system offering two and four channel electrical stimulation, ultrasound, EMG, and laser options
- Wide range of clinical waveforms and multiple options for ultrasound and laser applicators
- Color, LCD display with pre-programmed and user defined protocols
- Basic clinical, reference, and anatomical libraries

Intellect® Shortwave Diathermy

- Deep tissue heating over a large body area
- Treats both acute and chronic conditions with the convenience of hands-free
- Full color clinic resource library with applicator placement images, anatomical images, and pathologies
- Clinical product with fully adjustable parameters

Vectra Genisys® Transport Laser

- Designed with the demands of the clinician in mind
- Low-level laser therapy
- Independent control over all laser parameters
- Real-time dosage feedback
- Multiple laser applicators to choose from, including single laser diodes and cluster probes (LED and laser)

Intellect® Transport Ultrasound, Stim, or Combo

- Lightweight design with battery-powered option
- Clinical indications on board along with user-defined memory positions
- Independent controls for each of the two stim channels
- 1 and 3 MHz ultrasound with interchangeable applicator sizes
- Mobile, table top, or cart usage

Revolution Wireless™

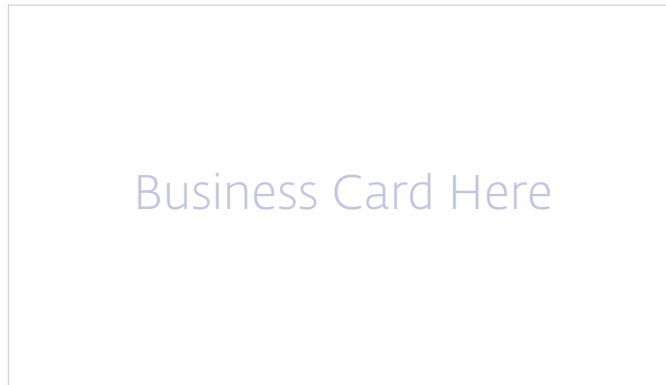

- Protocol driven programs with evidence-based waveforms
- 14 Pain Management and Muscle Strengthening Programs including programs for: **trigger points, acute and chronic pain, decreasing edema, muscle spasm relaxation, muscle re-education and muscle strengthening**
- 4 channel option for bi-lateral or co-contraction treatment
- Wireless, portable, easy to use

Chattanooga's® Therapeutic Modalities provide solutions for:

Non-Narcotic Pain Control • Muscle Re-Education and Strengthening • Deep Heating • Tissue Healing and Stimulation
