# THERATHERM® DIGITAL MOIST HEAT PACK

Proven in the Clinic, Portable for Home

The Theratherm® Digital Moist Heat Pack provides moist heat therapy for pain management.<sup>1</sup> Its flannel cover draws moisture from the air and as the packs temperature rises, the moisture is released onto the skin, speeding relief to your patients. Its unique, easy-to-use digital control is convenient and safe.

## KEY FEATURES

- Convenient preset time and temperature with on board auto shut-off safety feature and audible buzzer
- New larger easy-read digital hand control for operation, programming, temperature and/or treatment time with new back lit display with one button activation
- Unique and responsibly sourced porous sand retains moist heat while conforming to the body with no chemicals
- Lockout mode protects against inconsistent setting changes throughout treatment sessions
- Moist heat therapy temperatures range from 113° to 167°F (45° to 75°C)
- Treatment sessions up to 60 minutes
- Specially designed flannel cover for efficient moisture retention
- One-year warranty

## INDICATIONS

The Theratherm® Digital Moist Heating Pad is intended to provide moist heat therapy for body surfaces.<sup>1</sup> It is capable of maintaining an elevated temperature during use, and temporarily relieving minor muscular or joint pain.<sup>1</sup>
